HMSA Essential Prescription Formulary

(Effective 01/01/2020)

INTRODUCTION

HMSA's Essential Prescription Formulary for commercial plan members is a new product to help keep health care affordable, while maintaining a patient's health and safety, and providing quality care.

HMSA Essential Prescription Formulary is a managed formulary. Drugs listed on this formulary are considered covered benefits.

Consistent with the principles of this formulary, new drugs will be reviewed by HMSA's Pharmacy & Therapeutics Committee (HMSA P&T Committee) to assess safety and effectiveness before any drug is added to the formulary. The HMSA P&T Committee is comprised of practicing physicians and pharmacists from our community.

In addition to new drugs, the HMSA P&T Committee reviews the formulary on a continuous basis with the help of HMSA staff. The formulary approval process is designed to ensure that clinical evidence and medical value are considered before cost. If drugs within a treatment class are clinically comparable, the committee will assess cost-effectiveness and choose agents with the best value.
