¹ If you have a balance in your 2021 Health Care FSA on Jan. 1, 2022 and you enroll in the HDHP, your FSA will automatically be converted to a Limited Purpose Health Care FSA, which means you can only use the funds to cover dental and vision expenses.

² Some services may require a copay.

³ Some services may require coinsurance.

HSA vs. FSA vs. HRA

Health savings accounts (HSAs), health reimbursement accounts (HRAs), and flexible spending accounts (FSAs) all offer ways to pay for health care expenses while saving on taxes. The HRA is funded by PetSmart for associates enrolled in PPO2. FSA and HSA are funded by you, the associate, and PetSmart also contributes to your HSA account. There are many big differences between how the accounts work, though. The HSA employer seed is \$390 annually for associate only and \$780 annually for associate plus dependent(s). Visit benefits.petsmart.com to learn more.
