

Get to Know Your Commuter Benefits

Cost Savings

A commuter program allows you to save money on transportation to and from work while you are actively employed by purchasing subway cards, parking garage permits, etc., with pretax dollars deducted monthly (lump sum) from your pay. This can reduce your taxable income by up to \$325 per month (IRS limit for 2025).

Convenience

When you enroll in a commuter program, you have access to Edenred Benefits, a website that lets you manage your account online anytime. You can also set up recurring orders, allowing you to automatically receive them monthly.

What's Eligible?

However you commute, it's likely eligible! * Eligible forms of transportation include train, commuter rail, shuttle bus, bus, light rail, parking, vanpool, ferry and boat. **Note: Mileage, tolls, fuel, carpooling, and business travel are not eligible for the commuter program.*

How Does it Work?

Through your Benefit Portal, you can:

- Order a transit and/or parking pass to be mailed directly to your home
- Renew a transit and/or parking pass automatically (monthly)
- Track your order history
- Maintain personal account information

How to Enroll:

1. Log into your [PetSmart Benefits Portal](#) and navigate to "Reimbursement Accounts."
2. Under Accounts, select "Commuter Account".
3. This takes you directly to your personal account, via single sign on, where you can get a card, order monthly benefits and view/submit claims.
