How to access your deferred compensation account

Go online to enroll or request changes, get plan details, and manage your account

Access your account in three easy steps

1 Log in to **empowermyretirement.com** with your username and password. If you haven't already, you will need to register your account:

– On the login page, choose *Register*.

– Click the *I do not have a PIN* tab.

– Enter your personal information and create a username and password.

If you have other accounts with Empower, like a previous employer's plan or an IRA, you may be asked if you want to link the accounts with one password. Continue following the prompts to get to step 2.

2 Choose the *Account* drop-down list at the top of the page and click your deferred compensation plan name.

3 Select *View account* and click *Continue*.

If you're enrolling or requesting changes during your open enrollment period, choose *Enroll Now* to get started.
